ABOUT ME

A motivated senior Software Engineering student with a strong passion for coding and continuous learning. Quick to grasp new technologies and programming languages. Able to work well both independently and in a team environment. Committed to meeting deadlines and delivering clean, reliable code under pressure.

OBJECTIVES

As a junior backend developer, I aim to work in a challenging environment where I can contribute to innovative projects, improve system performance, and support business objectives through efficient and scalable solutions. I am eager to grow by learning from real-world development, collaborating with experienced teams, and continuously expanding my technical skill set.

SKILLS

- Languages:**
Java, Javascript, C#, C++
- Frameworks:**
Node.js, Spring Boot, Spring MVC, Servlet MVC, Hibernate
- Databases:**
MySQL, SQL Server
- Others:**
Git, Fluent in English

EXPERIENCES

Team projects

1. E-commerce Website (5 members)

Technologies: Java, Servlet, JPA, MySQL

- Built backend features such as product search, category/price filters, and user rating system to improve shopping experience.
- Implemented admin-side functionalities for managing product categories (create, update, delete).
- Designed and mapped JPA entities to manage database operations efficiently with MySQL.
- Contributed to system architecture by creating use case diagrams, class diagrams, and writing use case descriptions.
- Collaborated with the team using Git for version control and participated in regular code reviews.

2. News Website (2 members)

Technologies: Java, Servlet, JPA, MySQL

- Built a full-featured news website allowing users to read articles, browse by category, and search for content.
- Implemented admin-side functionalities for managing articles and organizing news categories dynamically.
- Applied MVC design pattern using Java Servlet and JPA for clean separation of concerns and maintainability.
- Designed database schema and integrated backend logic with MySQL to store and retrieve article data efficiently.
- Collaborated with a teammate using Git for version control and task coordination.

EDUCATION & CERTIFICATIONS

HCM University of Technology & Education

October 2022 – Present

Major: Software Engineering

TOEIC: 665

ADDITIONAL SKILLS

- Communication skills
- Problem-solving skills
- Adaptability skills
- Leadership skills
